Summary

AI-focused developer with experience building backend systems that integrate machine learning workflows and structured data processing. Strong foundation in data analysis, prompt engineering, and system design, with hands-on experience developing AI-enabled applications. A quick learner with a strong interest in applying AI to real-world problems and building practical systems. Looking to begin my career in an AI-focused role where I can contribute, experiment, and continue learning.

Education

B.Tech, Electronics and Communication Engineering	2022 – 2026
Sri Venkateswara College of Engineering, Tirupati	CGPA: 8.83/10
Intermediate (Class 12)	2020 – 2022
Gurudeva Vasistah Junior College, Kodur	87.6%
SSC (Class 10)	2020
Silver Bells English Medium High School, Kodur	CGPA: 10/10

Experience

Listing Partner (Freelance) – WEEX Feb 2025 – Present

- Analyzed structured datasets to identify inconsistencies and improve data quality.
- Conducted research on listings and validated information to ensure accuracy and completeness.

AI Azure Intern – Microsoft & Edunet Foundation May 2025 – Jun 2025

- Evaluated AI model outputs and analyzed inconsistencies to improve response quality.
- Documented findings and contributed to improving model reliability and performance.

Projects

- **AI Memory SDK – Long-Term Memory Infrastructure** Live
 - Built a FastAPI + PostgreSQL backend for managing structured long-term memory (facts, preferences, events).
 - Implemented LLM-based memory extraction, prompt-driven context injection, and secure API access.
 - Designed workflows for storing, retrieving, and analyzing user data to support AI-driven applications.
- **Finance Manager – Java Application** GitHub
 - Developed a Java-based system for tracking financial data and structured records.
 - Analyzed input data and ensured correctness through validation logic.
 - Organized data workflows to improve clarity and usability of financial insights.

Skills

- **Programming:** Python (basic), Java, SQL
- **AI / ML:** LLM-based workflows, Model Output Evaluation, Basic ML Concepts
- **Data:** Data Analysis, Data Validation, Structured Data Handling
- **Prompt Engineering:** Context design, output refinement, prompt iteration
- **Tools:** FastAPI, Git, Postman
- **Approach:** AI-assisted development, rapid prototyping, experimentation

Certifications

- Oracle Cloud Infrastructure (OCI) Foundations Associate
- Oracle Cloud Infrastructure (OCI) AI Foundations

Additional Information

- Open to relocation and rotational shift-based roles.

Languages

- English (C1), Hindi (B2), Telugu (Native)
